### Native Tree Preferences & Facts

<u>Species</u>	<u>Soil/Light Preference</u>	<u>Species Preferences &amp; Growth Rate</u>
Red Pine	Dry/Full	Moderately fast growth, Likes dry/sandy soils. Minnesota state tree
White Pine	Dry or Moist/ Part	Fast grower. Likes moist Loamy soils. Deer candy, be sure to protect young seedings!
White Spruce	Dry/Any	Fast grower. Likes well drained soils. Great wildlife cover.
Black Spruce	Wet/Shade	Typically a slow grower. Likes boggy areas.
Balsam Fir	Well Drained/Part	Fast grower. Likes moist loamy soils. Great Wildlife Cover.
Tamarack	Any/Full	Typically slow grower. Wide soil range. Needles glow vibrant orange/yellow in fall.
White Cedar	Moist/ Any	Slow grower. Prefers lakeshore, or clay loam soils. Recommend protection from deer browsing.
Silver Maple	Wet/Shade	Fast grower. Floodplain species.
Bur Oak	Well Drained/Part	Slow grower. Likes well drained soil, but Will grow in a variety of conditions. Acorns!
N. Red Oak	Moist/Part	Fast grower. Prefers dry soils. Acorns for wildlife.
Paper Birch	Well-Drained/Full	Fast grower. Prefers well drained/sandy soils. White paper-like bark.
Red Maple	Well Drained/Part	Moderately fast grower. Grows in an array of soil conditions. Red/yellow in fall.

### Native Grasses Preferences & Facts

<u>Species</u>	<u>Soil/Light Preference</u>	<u>Species Traits</u>
Indian Grass	Moist/full	Typically grows 3-5' tall (less frequently to 6') and is noted for its upright form and blue-green foliage.
Big Bluestem	Moist/full	Also known as Turkey Foot. Moderately tolerant of acidity and can withstand periodic flooding and high-water tables
Little Bluestem	Dry/partial	typically matures to 2-4' (less frequently to 5') tall, and features upright clumps of slender, flat, linear green leaves

### Seed Mix Information-

#### **Lovely Lakeshore Blend-**

Attractive mix with moisture-tolerant and emergent species that thrive near the water's edge. Now designed with shorter height grasses, more sedges, and mixed height wildflowers.

#### **Pollinator Paradise Blend-**

Dry-mesic version of our popular Pollinator Mix approved by the Xerces Society for pollinator habitat enhancement and restoration. Our most diverse mix, with over 25 species of wildflowers including 3 or more in each bloom season: spring, summer, fall.

### Browse Prevention Products-

**Tree Shelter-** Yellow plastic mesh, 36 inches tall and 4 inches in diameter; each comes with a bamboo stake for securing.

**Plantskydd-** Plantskydd is a blood derivative which triggers a predatory reaction, and deer are deterred by the smell. It typically needs to be applied spring & fall, & 1 quart treats 100 plants, 1 foot tall. The 1 lb. powder concentrate mixes to make 4 quarts.

**Repellex-** Repellex is a pill-like tablet added to the soil when planting. Gives plants a hot pepper taste that deters deer and rabbits. One tablet per foot of plant height until out of browse height.
